The following is an examiner's statement of reasons for allowance:

Claim 1 recite, inter alia, *at least the winding that at least in part surrounds the other winding comprises at least one portion having a winding density that is greater than the remaining winding density, a diameter of innermost turns being smaller in the at least one portion than a diameter of the innermost turns in the remaining winding portions.*

Claim 11 recites, inter alia, *at least one portion of at least the winding that at least partially surrounds the other winding having a winding density that is greater than the remaining winding density, wherein the diameter of innermost turns is smaller in the at least one portion than the diameter of the innermost turns in the remaining winding portions.*

The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
